

MG Motor India joins hands with TATA Power to deploy Superfast chargers at select MG Dealerships

Gurugram, 08 June 2020: Initiating the next phase of EV revolution in India, MG Motor India has today, signed a memorandum of understanding (MoU) with Tata Power, India's largest integrated power utility. As part of the association, Tata Power will deploy 50KW DC Superfast chargers at select MG dealership locations and offer end-to-end EV charging solutions to MG dealerships spread across India.

Through this association, MG Motor aims to lay a specific focus on the key target cities they will be foraying into as a part of their future EV expansion plans. These superfast 50KW DC chargers will be accessible by both MG ZS EV customers as well as other EV owners whose automobiles are compatible with the CCS / CHAdeMO charging standards.

Speaking on this association, **Rajeev Chaba, President & MD, MG Motor India**, said, "Further strengthening our commitment to India, we aim to provide our customers with a robust charging ecosystem to promote the adoption of cleaner and greener mobility solutions. With a partner like Tata Power, a renowned major in the field of power, we are confident that we will create a distinct synergy together."

Mr. Praveer Sinha, CEO & MD, Tata Power Company Limited, said, "We are delighted to associate with MG Motor India as an end-to-end EV charging partner as also work on second life of battery usage in future. As India's leading integrated player in the EV charging space, we aim to provide customers a seamless charging experience. We are confident that this partnership with MG Motor will further boost our country's ability to adopt the electrified range of vehicles that MG Motor has to offer."

MG Motor India already has a total of 10 SuperFast 50 kW charging stations across its dealerships in five cities - New Delhi- NCR, Mumbai, Ahmedabad, Bengaluru and Hyderabad – and is expanding them to more cities. Tata Power, on the other hand, has established an elaborate EV Charging ecosystem with 180+ Charging points in 19 different cities under EZ Charge brand along with digital platform to facilitate easy & smooth customer experience. The MG-Tata Power partnership will involve core values and operating model in line with their existing customer-centric approach including exploring the possibility of 2nd life management of EV batteries.

About MG Motor India

Founded in the UK in 1924, Morris Garages vehicles were world-famous for their sports cars, roadsters, and cabriolet series. MG vehicles were much sought after by many celebrities, including the British Prime Ministers and even the British Royal Family, for their styling, elegance, and spirited performance. The MG Car Club, set up in 1930 at Abingdon in the UK, has thousands of loyal fans, making it one of the world's largest clubs for a car brand. MG has evolved into a modern, futuristic and innovative brand over the last 96 years. MG Motor India has its car manufacturing plant at Halol in Gujarat.

About Tata Power:

Tata Power is India's largest integrated power company and, together with its subsidiaries & jointly controlled entities, has an installed/ managed capacity of 12,742 MW. A pioneer in the field, it has a presence across the entire power value chain - generation of renewable as well as conventional power including hydro and thermal energy, transmission & distribution, trading and coal & freight logistics. With nearly 2.6GW of renewable energy assets in solar and wind accounting for 30% of the company's portfolio, Tata Power is a leader in clean energy generation. In line with the company's view on sustainable and clean energy development, Tata Power is steering the transformation of utilities to integrated solutions by looking at new business growth in EV charging & storage, distributed generation & rooftops, micro grids and home automation & smart meters. It has successful public-private partnerships in generation, transmission & distribution in India, namely 'Tata Power Delhi Distribution Ltd.' with Delhi Vidyut Board for distribution in North Delhi; 'Tata Power Ajmer Distribution Ltd.' with Ajmer Vidyut Vitran Nigam Ltd. for distribution in Ajmer; 'Powerlinks Transmission Ltd.' with Power

Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi; 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology.

With its 105 years track record of technology leadership, project execution excellence, world-class safety processes, customer care and driving green initiatives, Tata Power is poised for multi-fold growth and committed to 'lighting up lives' for generations to come. Visit us at: www.tatapower.com
